A Virginia Mother

says she used five bottles of Mother's Friend.

Friend, beginning six months before confinement. She felt perfectly well up to a few hours before the baby was born, and was in labor less than two hours. She had no morning sickness, no headache, no distressing tightness, no swollen or rising breasts. Her baby was strong and the picture of health.

Mother's Friend is the only remedy known which relieves the expectant mothers. It is a liniment to be applied externally. Nothing but harm can come from taking medicine internally at such times. All internal preparations said to relieve coming mothers are not only humbugs, but positively dangerous.

Mother's Friend costs \$1 a bottle of druggists, or you can send to The Bradford Regulator Co., Atlanta, Ga.
